PROJECT EXPERIENCE

Movies app GithubLink   [HTML, CSS, JS, React]

With this app, you can easily keep track of the latest movie releases.

News-site GithubLink   [HTML, CSS, Parcel, JS]

This is a team project. In this project, I played the role of a developer. Our "main" section was divided into four people. I rendered the entire section and added styles.

Phonebook GithubLink   [HTML, CSS, JS, React]

This is a my app. In this application, the user can register and use the phone book.

Task pro GithubLink   [HTML, CSS, React, Node.js]

Team project. My role is developer. I made sections: "sidebar", put together a "homePage" and adaptive "headerBurgerMenu" This application solves the problem of building tasks.

MIMIHO GithubLink   [HTML, SASS, Parcel, JS]

This is a team project. In this project, I played the role of a developer. I developed the "contacts" section.

WebStudio GithubLink   [HTML, SASS, JS]

Web studio site. It was supposed to have HTML and CSS technologies, but I decided to add some JS as well.
